Tariff of Charges

Our Tariff of Charges fully reflects good practice principles. This same document is being used across the industry to help customers compare the fees and charges applied for services. When looking at the fees that other firms charge, you may notice some that don't appear in our tariff. This means we don't charge you these fees. Any fees or charges added to your mortgage will incur interest at the same rate as the rest of your borrowing.

The following charges apply to special services:
